**CURRENT STATUS OF RESOURCE CONSERVATION AND RECOVERY ACT
(RCRA) REGULATED UNITS AT THE FORMER NAVAL AIR STATION ALAMEDA
(ALAMEDA POINT), CALIFORNIA, EPA ID No. CA 2 170 023 236**

Dear Mr. Macchiarella:

The Department of Toxic Substances Control (DTSC) received the document entitled, "Current Status of Regulated RCRA Units NAS Alameda: Now Known as Alameda Point", dated June 2, 2004. DTSC has reviewed this document and concurs with the status of the units included in Table 1 entitled "Summary Table; Current Status of Regulated RCRA Units." DTSC understands the Navy's goal to avoid any unforeseen closure issues during the parcel transfer process and hopes that this acknowledgement letter will help achieve that end.

Please note that this acknowledgment of the closure status of regulated units is not a certification that they pose no environmental or public health threat or that RCRA corrective actions for Solid Waste Management Units associated or collocated with Hazardous Waste Management Units have been completed. Nor does it remove any liabilities associated with past hazardous waste management practices which occurred on the site.

If you have any questions or comments concerning this letter please contact Mr. Dean Wright of my staff at (916) 255-6528.

Sincerely,

For:
Sal Ciriello, P.E.

Unit Chief

Standardized Permitting and Corrective Action Branch

Mr. Thomas L. Macchiarella
